The Ultimate in Mobility

A lifeguard tower that is simple, functional and mobile. In its mobile state it functions as a boat trailer, which can easily be erected into a structurally safe lifeguard tower with good view. This gives the design a greater value both for business and private use.

X-road

Light, durable and extremely strong structure

Using, recycled marine grade aluminium

Ability to hold fluids, for use as a water and fuel supply on beach

Considered a vehicle, therefore boycotts restrictions usually accompanied with a structure of this height and purpose
